

It's Back, Federal Tax Credits up to \$500.

Consumer Alert

Dear Friend,

Can you believe that spring is only 1 month away? Where has the time gone? If you are like so many others, you have probably put off changing out your Air Conditioning system this past year and are waiting to do it this year. That is great if you are. I have worked a deal with the manufactures to kick start the cooling season by offering Air Conditioners for as low as \$750. That's right only \$750. All you have to do is purchase the indoor coil and furnace and we will throw in the Air Conditioner for as low as \$750. All my 13 SEER Air Conditioners are \$750, my 14 SEER Air Conditioners are \$1500 and the 2-stage 16 SEER Air Conditioners are only \$3000.

Did you experience high-energy bills in the summer? Does your home feel moist in the summer time or does it have a musty smell? Do you have rooms that are too cold in the winter and too hot in the summer? If so, please call us today so that we can help you address these concerns and help get your home Cooling and Heating properly.

I will come out to your home and perform a load calculation to verify system size so that it works properly and reduces your utility bills. Now who couldn't use some savings from the energy providers? We can then sit down to discuss my findings about how we can best make you comfortable and save you money. We have many systems that can fit into any budget and if you need help we offer Financing up to 24 months no interest.

So if you have a Heating and Air system 8 years or older call today, **770-475-9555** for your free energy consultation. As an additional incentive with the purchase of a Variable Speed furnace we will provide you the new, state of the art, iComfort Wi/Fi thermostat. This is a \$595 value that features your ability to control your HVAC system from your Smart Phone.

As our slogan says, "Be Warm. Stay Cool. Year-Round."

Thank you,

John Petty

770-475-9555

PS. If your system is due for routine maintenance we will do this for only \$69 and guarantee that your system will not breakdown during the Cooling season and if it does we will repair it at no additional charge. Each additional system will be \$59.
